About Me

Dedicated and detail-oriented Front-End Developer with 2 years of experience specializing in UI/UX design and React.js. Skilled in creating intuitive, responsive, and dynamic web applications that deliver seamless user experiences. Proven expertise in translating design wireframes into high-quality code, optimizing performance, and implementing best practices for web development. Passionate about driving innovation and enhancing user engagement through efficient and maintainable solutions.

Professional Experience

Front end Developer | TCS
2021 –2023

Key responsibilities:

- Crafted specialized UI components and interactive features that enhanced customer engagement and loyalty on e-commerce platforms.
- Successfully developed and maintained scalable web applications using React.js, resulting in a significant increase in user engagement.
- Participated in code reviews and adhered to best coding practices, reducing bugs and improving team productivity.
- Optimized loading times and overall performance by implementing lazy loading techniques and minifying CSS, JavaScript, and HTML files.
- Developed reusable components and libraries to accelerate development processes and maintain consistency across projects.

Project

- PIXI and internal Candidate Login Pages
